# WORKSHAKER

STRIPES  
L-SOFA/H-SOFA  
PIVOT

With WORKSHAKER, based on the Stripes and L-Sofa models, Jérôme Gauthier proposes professional environments suited to workers' highly-evolved tools and methods. Characterized by phonic and visual insulation conducive to reflection, collective meeting zones and individual work zones cohabit in the same optimized space. The alternating horizontal supports (seat, table and tray) and the vertical surfaces (file partitioning) encourage a variety of postures in a multitude of situations.

This diversity of spatial positions – face to face, side by side, back to back – and the quality of exchanges it allows, is enriched by the rotating seat and the height adjustable table Pivot, linked to the Stripes Back Tray and L-Sofa Light. Integrated solutions for electrical and computer connections facilitate the use of tables and trays. Independent electrical and lighting additions augment connection possibilities and users' mobility. Marelli introduces a mix of versatile and easily expandable organizational solutions to furnish easy to access and use work spaces.
